

Pfohl Affidavit Response to SD 12

MICHAEL L. PFOHL, first being duly sworn, testifies as follows:

- [0001] I am the owner of PF Data, a firm which provides an array of services ranging from data management to political consulting. Our clients includes campaigns and political organizations, lobby groups, and non-profit organizations. Our data services include processing of election voter data, targeting analysis, campaign fundraising list and compliance management, and designing customized software solutions for various organizations. My duties with PF Data include reviewing the rebuttal to challenges to recall efforts against Senator Holperin.
- [0002] In connection with my duties at PF Data, I have reviewed the rebuttal memoranda and all supporting affidavits, including the affidavit of John Hogan. I have prepared this affidavit and attached exhibits in connection with this review.
- [0003] In Mr. Hogan's affidavit, he provides analysis of Senator Holperin's challenges to the recall petitions and disputes certain categories of Senator Holperin's challenges. Upon inspection of the underlying evidence and date, in a majority of instances, Mr. Hogan's assertions are either inaccurate or fail to contradict Senator Holperin's challenges but rather support them.
- [0004] In paragraph 4a and Exhibit A of Mr. Hogan's affidavit, Mr. Hogan asserts that a Senator Holperin's challenges based on signer date are without merit. Upon reviewing the signatures he references, a majority of his assertions are simply incorrect and the date that actually appears on the petition page is either missing or invalid. In other cases, Mr. Hogan's own data clearly agrees with Senator Holperin's findings that the dates are otherwise invalid. A list of Mr. Hogan's factual errors is attached hereto as Exhibit SD12HrA.
- [0005] In paragraph 4b and Exhibit B of Mr. Hogan's affidavit he disputes Senator Holperin's challenge of signer dates based on illegibility, numerical errors in dates, and ditto marks. Inspection of the specific petitions that are the subject of Mr. Hogan's assertions establish that the assertions are largely incorrect or do not change the validity of the dates. First, Mr. Hogan correctly notes that "ditto marks" are present in the date field for many signers, rendering them invalid under Wisconsin law. In many other cases, the dates challenged fall outside of the date range of the circulation period (such as January 2nd) or on dates that did not exist (like February 30th). A list of Mr. Hogan's factual errors is attached hereto as Exhibit SD12HrB.
- [0006] In paragraph 4c and Exhibit C of Mr. Hogan's affidavit he disputes Senator Holperin's challenge of signatures as being outside of the 30th Senate district. He attests to using the legislatures "Who Are My Legislators" ("WAML") to check these addresses. In the cases listed in Exhibit C, Mr. Hogan is incorrect, and his use of WAML is suspect. Mr. Hogan attests that a city in Michigan lies within the 12th Senate District. Likewise, many other examples listed in Mr. Hogan's

Exhibit C are incorrect. Exhibit SD30HrC, attached hereto, details all of the signers who are out-of-district and what Senate district they actually live in.

- a. Mr. Hogan attests that a city in Michigan lies within the 12th Senate District. Hogan attests that ‘Watersmeet’ (error number 507) lies within Senator Holperin’s district. Watersmeet is actually a city in Michigan, and decidedly not in Wisconsin’s 12th Senate district.
- b. Likewise, other examples listed in Hogan’s Exhibit C are erroneously stated to be in the 12th Senate district, including the municipalities of Rietbrock, Bern, Knox, Fifield, Plover, and Maine. Exhibit SD12HrC, attached hereto, details all of the signers who are out-of-district and what Senate district they actually live in.
- c. Exhibit12HrC is comprised of data provided by WAML. When WAML could not find an address to correctly place it in or out of the district Geographic Information System (GIS) tools were used. GIS is the system that the Wisconsin legislature uses to draw the redistricting maps. It is extremely precise.
- d. GIS consists of specialized software and computerized maps and databases to store, display, and analyze geographic information. This is the same type of information and processes which produce the results generated by WAML, but rather than using WAML to locate the districts of individual legislators, the entire dataset of signatures was processed with ArcMap GIS to locate the addresses on a map and return their political geography (municipality, ward, senate district, etc.) on a bulk scale.

[0007] In paragraph 4d and Exhibit D of Mr. Hogan’s affidavit he disputes Senator Holperin’s challenge to the municipalities of many signers. It appears Mr. Hogan misunderstand the nature of Senator Holperin’s challenge, which was that the signer failed to list an accurate and correct municipality as required by the Government Accountability Board. Indeed, the following instructions appear at the top of every one of the recall petitions submitted: The following instructions appears at the top of every one of the recall petitions submitted: “**The Municipality used for mailing purposes, when different than municipality of residence, is not sufficient. The name of the municipality of residence must always be listed.**” A complete list of the incorrect municipalities and the corresponding correct information which should have been provided is included as Exhibit12HrD.

[0008] In paragraph 4e and Exhibit E of Mr. Hogan’s affidavit he disputes Senator Holperin’s challenge of missing or inaccurate circulator dates. In nearly all cases, the pages Mr. Hogan provides as reference directly confirm Senator Holperin’s challenge, as the circulator date is precedes one or more signature dates on the

page, rendering those signatures invalid. Exhibit SD12HrE lists Mr. Hogan's errors.

Miscellaneous:

[0009] While researching the response to Mr. Hogan's affidavit, additional invalid signatures were discovered.

- a. 39 signer addresses are business addresses, not residential and therefore should not be counted. These appear in Exhibit SD12HrF.
- b. An egregious example of 3rd party handwriting appearing in the circulator section of the form can be found on page 2720 with circulator Paula Visner. In fact, this page is included with Ms. Visner's affidavit attesting to circulator date issues:

Paula Visner **Certification of Circulator**
I, Paula Visner (name of circulator) certify:
I reside at 6045 BEAVER TR 144446 CLOVERLAND TOWNSHIP
(circulator's residence - include number, street, and municipality)
4/5/11 *Paula Visner* (signature of circulator)
(date)
Please mail this form to: Recall Jim
P.O. Box 981 • Eagle River, WI 54521
www.recalljim.com • admin@recalljim.com
Page No. 25/20
OA-N-170 (Rev. 6/2007) The information on this form is required by §§ 8.40 and 9.10,失利. Stat.
This form is prescribed by the Government Accountability Board, P.O. Box 7794, Madison, WI 53707-7794
608-264-8005; http://www.gab.wisconsin.gov

- c. In this instance, it appears either the unlikely scenario occurred in which Ms. Visner forgot she lived in the city of Eagle River and the township of Cloverland, or more likely, a third party began to write down an incorrect township for her – Washington – and later corrected themselves. As noted in Senator Holperin's original response, this third party handwriting appears on hundreds of circulator pages without affidavit attesting to who made the changes or how they possibly could have personal knowledge of hundreds of circulators.

[0010] In an attempt to rehabilitate missing or inaccurate circulator addresses, the Jim Holperin Recall Committee relies upon an affidavit by Ms. Kim Simac attesting to her personal knowledge of circulators listed in Exhibit C of her affidavit. Her personal knowledge is called into question by the following example:

- a. The 13 entry on page 3 of her Exhibit C states the name ““Au??ie Aisha??” 4046 Hwy 708 Eagle River. It appears Ms. Simac is attempting to rehabilitate a circulator originally challenged by Senator Holperin as error number 332 in the “Circulator Address Challenges” table.

- b. Indeed, closer inspection of page 338 shows that the circulator's handwriting is difficult to read and it is unclear exactly what the first or last name is at a quick glance:

Certification of Circulator

I, Dashy am, certify:
 I reside 4045 Hwy 70 E Green Bay WI SYRACUSE
 (name of circulator) (circulator's residence - include number, street, and municipality)

I personally circulated this recall petition and personally obtained each of the signatures on this paper. I know that the signers are electors of the jurisdiction or district represented by the officeholder named in this petition. I know that each person signed the paper with full knowledge of its content on the date indicated opposite his or her name. I know their respective residences given. I support this recall petition. I am aware that falsifying this certification is punishable under § 12.13(3)(a), Wis. Stats.

4-1-11 (date) Dashy am (signature of circulator)

GAB-170 (Rev. 6/2007) The information on this form is required by §§ 8.40 and 9.10, Wis. Stats.

 608-266-8003, <http://gab.wi.gov> email: gab@wi.gov

Page No. 338

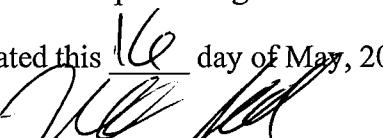

- c. Elsewhere in Exhibit C, Simac references circulators by only the first letter of their first name because it appears it is difficult to read the entire first name due to illegible handwriting. Examples include:

- i. Pg. 2- "O. Neuman"
- ii. Pg 4- "Douglas ???"
- iii. Pg 5- "Leonard Witrshef???"
- iv. Pg 8- "K. Lorenzen"

Conclusion:

[0011] In conclusion, Mr. Hogan's attempts to rebut Senator Holperin's challenges in many instances simply fails factually. In other cases, his facts do not contradict but actually support Senator Holperin's challenge. In still more cases, his claims appear to be in error due to data entry error on his part, as they do not match information appearing on the petitions referenced. The majority of Senator Holperin's signature based challenges stand.

Dated this 16 day of May, 2011.

 Michael L. Pfohl, Owner, PF Data, LLC
